

Your apprentice job overview

Data Analyst Apprentice

NatWest
Group

Job title:
**Data Analyst
Apprentice**

Hours per week:
35

Location:
Edinburgh

Salary:
£25,020

Business areas:

Digital X - Fraud Prevention

The Fraud Prevention Centre of Expertise focuses on protecting customers, ensuring safer banking, and disrupting criminals. Through transformation, innovation, and targeted customer education, we aim to create best-in-class fraud prevention journeys, leveraging cutting-edge technology to safeguard our customers.

Digital X - Data Analytics

Our Data Analytics team harnesses customer data responsibly to enhance customer experiences. With expertise in data engineering and science, we develop machine learning models and statistical methods to optimize decision-making. Apprentices gain hands-on experience to become future data leaders.

Group Chief Operating Office – Finance

We ensure sound financial management to support strategic decision-making and long-term growth. By overseeing financial activities, managing the balance sheet, and optimizing investments, we help the organization make responsible financial choices that benefit customers and stakeholders alike.

The job you'll be doing: Data Analyst Apprentice

- Build and maintain strong, trusted partnerships with the businesses and third-party suppliers to understand and support the capability needs of the business
- Extract, manipulate, and analyse complex data to provide insights that drive strategic decisions and operational effectiveness.
- Collaborate with stakeholders to gather, validate, and document business and data requirements, ensuring alignment with organisational goals.
- Identify business opportunities and analyse trends through data interpretation and visualisation.
- Support skills development by identifying knowledge gaps and implementing learning frameworks.
- Develop and implement quality assurance processes to ensure data integrity and reliable analyses.
- Lead communication and engagement strategies, ensuring insights are effectively integrated into business operations.

The skills you'll need:

We're looking for people with a passion for learning and high levels of determination, motivation, and drive to succeed. You'll have strong communication, stakeholder management and interpersonal skills with the ability to build, maintain and enhance relationships at all levels.

You'll also need:

- The ability to maintain a strong customer focus.
- An innovative and creative mindset
- Good problem-solving skills and a proactive and inquisitive mindset, with the ability to challenge and offer solutions
- An analytical, numerate, and logical skillset with the ability to adapt well to change
- Good planning and organisational skills with the ability to prioritise and manage your time effectively
