

Apprenticeship Overview - Data Analyst

Hours per week: 35	Programme Duration: 19 months
Location: London	Qualification: Data Analyst L4
Salary: £27,990	Apprenticeship Provider: QA

The Job

Payments:

- Perform data analysis to identify trends, patterns and insights that support the strategic objectives
- Collaborate with business stakeholders to understand data needs and translate them into requirements
- Ensure data quality across systems and data bases
- Providing robust and challenging insights on business risks and control procedures, using data to help you do this
- Participating in developing the audit plan through ongoing business risk assessments
- Complying with audit methodology, and using tools and resources appropriately
- Producing effective engagement reports and opinions that successfully influence managers
- Sharing your knowledge relating to audit engagements across our function
- Collect and validate data from various sources to ensure accuracy and completeness

Internal Audit

- Participating in developing the audit plan through ongoing business risk assessments
- Complying with audit methodology, and using tools and resources appropriately
- Producing effective engagement reports and opinions that successfully influence managers
- Sharing your knowledge relating to audit engagements across our function

The Skills You'll Need

We're looking for people with a passion for learning and high levels of determination, motivation, and drive to succeed.

You'll have strong communication, stakeholder management and interpersonal skills with the ability to build, maintain and enhance relationships at all levels. We're looking for people who are passionate about data analysis.

You'll also need:

- The ability to maintain a strong customer focus.
- An innovative and creative mindset
- Good problem-solving skills and a proactive and inquisitive mindset, with the ability to challenge and offer solutions
- An analytical, numerate, and logical skillset with the ability to adapt well to change
- Good planning and organisational skills with the ability to prioritise and manage your time effectively
- The ability to communicate effectively (written and verbally) with stakeholders

The Business Area:

Payments Technology

Technology is at the core of modern banking, powering everything from savings and investments to customer support. Our teams design and implement cutting-edge digital solutions that enhance banking experiences for both customers and colleagues. By focusing on seamless, secure, and intuitive interfaces, we enable effortless interactions while allowing teams to focus on relationships, empathy, and real-world customer support.

Internal Audit

Internal Audit provides independent assurance by identifying risks, asking tough questions, and ensuring the right controls are in place to protect both the bank and our customers. By challenging existing processes and maintaining oversight, we help the organisation meet long-term ambitions while keeping financial systems secure.
